'A Night with the Spider Diaries'

I thought it was probably about time I did a video that showed some of the things that go on in just one night here in spider-land. So, meet 1 of our latest arrivals, watch some other spiders hunting, webbing, and eating, Boots gets a 'freerange' tank transfer, and not only that, but the soundtrack's in 7/8, so bonuses all round, really... enjoy the archnidy action !
